Summary

The Department of Information Resources (DIR) is pleased to announce the bulk purchase of laptops, desktops, monitors, peripherals, accessories, and related services. By tapping into our existing contractual vehicles through our Cooperative Contracts program, DIR anticipates a much-shortened procurement process for Customers. In addition, state agencies may participate in the hardware bulk purchase initiative without being constrained by dollar thresholds.

DIR has concluded vendor negotiations and Customers may now issue purchase orders. The time period for placing orders will cross fiscal years, so agencies will be able to use either Fiscal Year 2020 or Fiscal Year 2021 dollars toward these purchases through October 31, 2020.

Instructions for ordering

There is no minimum order quantity under the bulk purchase. Regardless of the number of items purchased, each Customer will pay the same, discounted, unit price for items including but not limited to laptop, desktop, tablets, monitors, accessories, and related services listed in the following sections.
