***Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service, to include under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

NOTE: Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.284 are:

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders' contracts,**
- **32.9 percent for all special trade construction contracts,**
- **23.7 percent for professional services contracts,**
- **26.0 percent for all other services contracts, and**
- **21.1 percent for commodities contracts.**

- - Agency Special Instructions/Additional Requirements - -

*In accordance with 34 TAC §20.285(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only the aggregate percentage of the contracts expected to be subcontracted to HUBs with which the respondent **does not** have a **continuous contract*** in place for **more than five (5) years** shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.*

SECTION 3: SELF PERFORMING JUSTIFICATION (If you responded "No" to SECTION 2, Item a, you must complete this SECTION and continue to SECTION 4.) SECTION 4: AFFIRMATION

As evidenced by my signature below, I affirm that I am an authorized representative of the respondent listed in SECTION 1, and that the information and supporting documentation submitted with the HSP is true and correct. Respondent understands and agrees that, if awarded any portion of the requisition:

- The respondent will provide notice as soon as practical to all the subcontractors (HUBs and Non-HUBs) of their selection as a subcontractor for the awarded contract. The notice must specify at a minimum the contracting agency's name and its point of contact for the contract, the contract award number, the subcontracting opportunity they (the subcontractor) will perform, the approximate dollar value of the subcontracting opportunity and the expected percentage of the total contract that the subcontracting opportunity represents. A copy of the notice required by this section must also be provided to the contracting agency's point of contact for the contract no later than ten (10) working days after the contract is awarded.
- The respondent must submit monthly compliance reports (Prime Contractor Progress Assessment Report – PAR) to the contracting agency, verifying its compliance with the HSP, including the use of and expenditures made to its subcontractors (HUBs and Non-HUBs). (The PAR is available at <https://www.comptroller.texas.gov/purchasing/docs/hub-forms/ProgressAssessmentReportForm.xls>).
- The respondent must seek approval from the contracting agency prior to making any modifications to its HSP, including the hiring of additional or different subcontractors and the termination of a subcontractor the respondent identified in its HSP. If the HSP is modified without the contracting agency's prior approval, respondent may be subject to any and all enforcement remedies available under the contract or otherwise available by law, up to and including debarment from all state contracting.
- The respondent must, upon request, allow the contracting agency to perform on-site reviews of the company's headquarters and/or work-site where services are being performed and must provide documentation regarding staffing and other resources.

Self-performing justification:

Peak Performers is capable of self-fulfilling on this contract. Over the last 25 years, they have provided professional staffing services to over 60 government agencies in Texas. In the last year, working as the community rehabilitation program (CRP) service provider of WorkQuest (formerly TIBH Industries), they billed over \$2 million dollars in information technology staffing under the DIR's ITSAC contract.

Furthermore, Peak Performers is obliged to and will staff all temporary service positions with its own employees and resources without direct HUB subcontracting for the following reason:

1. The Texas State Use Program has, since its inception been based on the premise that the *entire program* would be operated *solely* by the designated Central Nonprofit Agency (CNA), which has been WorkQuest since 1978, and by local nonprofit Community Rehabilitation Programs (CRPs) such as Peak Performers. The oversight agency has made it clear, over the years, that it looks to the CNA alone to operate and manage the Program and all its essential parts and that CRPs be nonprofit organizations. Program Rules 806.7 and 086.12 detail the numerous functions the CNA must itself perform. Under Program Rules 806.13, services provided through the Program must be executed by staff under the employ of a CRP. Any necessary subcontracting should utilize other CRPs and maximize the employment of Texans with disabilities.
2. The State Use enabling statute (Chapter 122, Human Resources Code) and the agency rules of the Texas Workforce Commission (40 T.A.C. §806.1 et seq.) define and require in Section 122.019(a) that the State Use Program be operated by a nonprofit corporation, the CNA (WorkQuest) by, with and for the benefit of workers employed by other nonprofit organizations, the CRPs (see Section 122.002(3) and Program Rules 806.2(4) and 806.6(d)). This state-mandated scheme does not contemplate either contracting or subcontracting in any substantial way with any for-profit business, which is what every Historically Underutilized Business (HUB) must be, under Texas law (see Texas Workforce Commission Rule, 40 T.A.C. §806.6(d)). As CNA, WorkQuest does not directly relate to minority-owned or women-owned for-profit businesses because each CRP, as a nonprofit organization, cannot be *owned* by any individual or group. A CRP can only be *managed* by minority persons or women, but it can never be owned by them as a HUB-qualified for-profit business is owned by them. Thus, the HUB subcontracting goals under Texas purchasing laws are not compatible with the State Use Program laws and practices.
